

# HARSH JAIN

## Senior Android Developer

PROFESSIONAL SUMMARY

Senior Android Developer with **7+ years of experience** designing, building, and scaling **consumer and fintech apps** used by millions. Proven expertise in **Kotlin, Jetpack Compose, Coroutines, Hilt, and scalable MVVM/MVI architectures**. Strong track record of improving **app performance, reliability, and user engagement** through measurable engineering outcomes. Experienced in **mentoring teams, architecting clean modular codebases, and driving features from concept to production at scale**.

WORK HISTORY

Senior Android Developer, 10/2021 to Current  
InMobi - Bengaluru

- **Boosted app stability and performance:** Improved crash-free users rate from **99.1% → 99.8%** by proactively monitoring crash analytics and implementing fixes.
- **Optimized app responsiveness:** Reduced landing page load time from **~2 minutes → ~800ms**, significantly improving conversion funnels.
- **Led reusable architecture efforts:** Designed **modularized libraries and reusable UI components**, cutting feature development timelines by **~20%**.
- **Mentorship & leadership:** Guided **5+ junior developers** on best practices (architecture, performance, testing), increasing team velocity.
- **Cross-functional impact:** Partnered with design and product to launch multiple features with **UI/UX consistency** and measurable user satisfaction improvements.

Android Developer, 10/2019 to 09/2021  
Paytm Money - Bengaluru

- **Owned trading & investment flows:** Contributed to core **Stocks, Mutual Funds, and IPO modules** for one of India's largest investment apps.
- **Delivered high-volume features:** Built real-time stock tracking & order placement modules, handling **millions of transactions daily**.
- **Collaboration:** Worked closely with backend engineers to **refactor API integrations**, ensuring stability under **peak trading volumes**.
- **API integrations at scale:** Delivered seamless **DigiLocker integration for KYC**, adopted by **millions of users** in fully online onboarding flow.

EDUCATION

B.Tech, Electronics And Communications Engineering, 08/2017  
Arya College of Engg. And I.T. - Jaipur

CONTACT

**Address:** Bengaluru, KA 560087  
**Phone:** +919950192591

PROJECTS

- **1Weather: Forecast & Radar** — Contributed to weather visualization modules, used by **50M+ users worldwide**, maintaining .
- **Paytm Money** — Drove core investment features (Stocks, MF, IPO), directly impacting **user acquisition and daily active traders**.
- **Clouithub (Social Media App)** — Built scalable feed & notifications system with optimized **lazy loading UI components**, improving engagement.

SKILLS

Core Android: Kotlin, Java, Jetpack Compose, Coroutines, Hilt/Dagger, MVVM, MVI

Architecture & Performance: Modularization, Clean Architecture, Performance Profiling (Perfetto, Android Profiler), Memory Optimization

CI/CD & Tools: Jenkins, Gradle, GitHub, Play Store Release Automation

Collaboration & Productivity: Android Studio, IntelliJ IDEA, GitHub Actions, Jira
